Student Evaluation Method

We follow Continuous and Comprehensive Evaluation (CCE) system for student's evaluation, which covers all aspects of activities related to student development. It emphasizes two-fold objectives such as continuity of evaluation and assessment of learning outcomes in a comprehensive manner. This CCE helps teachers to systematize their strategies for effective teaching. Continual evaluation allows the teacher to detect weaknesses and identify certain students' learning styles. By identifying a student's learning difficulties on a regular basis, it helps in improving performance of the student.
